## EDUCATION

- Bachelor's degree in systems engineering (UAM 2018 – 2023)

## ABOUT ME

I am a skilled software developer with expertise in ASP.NET, MVC, and JavaScript. I have experience in consuming RESTful services, using Web API, Entity Framework, and WCF. I am proficient in SQL and have good working knowledge of REST API, JSON, and SOAP.

I have experience with modern JavaScript frameworks and knowledge of deployment automation tools. Additionally, I have worked with JIRA and Agile development methodologies. My English proficiency is at a C1 level or higher.

## EXPERIENCE

### Account Manager / Volunteer as a software developer.

*Prodigious / Costa Rica / Jan 2022 – Present Account Manager Full-Stack Developer*

- Developed and maintained Java and C# applications using Web API, Entity Framework.
- Worked with JavaScript and modern frameworks to develop responsive user interfaces and consumed RESTful services.
- Worked with MySQL databases to manage data
- Communicated with team members and clients to ensure project success
- Troubleshoot and solved technical issues as they arose
- Adapted to a fast-paced environment and worked with multiple technologies
- Worked with JIRA and followed Agile development methodologies

### Account Manager

- Get in contact with vendors to resolve issues and get all the necessary invoices.
- Keep a track of everything that is done in the account.
- Correct any issues related to incorrect/missing invoices.
- Daily communication with the team in charge of the advertising campaigns.
- Part of the automation team, the main goal is to create tools that automate the repetitive tasks in the department.
